

# Director, Engineering – New Construction

## Building a Future – Be Part of a Winning Team

### Vancouver Shipyards, North Vancouver, BC

Experience, expertise and technology: that is what Vancouver Shipyards Co. Ltd.—a member of Seaspan Marine Corporation—brings to the marine industry in the design, new construction and repair of all types and sizes of vessels.

This key leadership role is responsible for the development of design, engineering and production information for new vessel construction, including the Federal Fleet Renewal Program. Reporting to the VP, Technical and managing and motivating a large team, you will be responsible ensuring our customers' visions are accurately produced for estimation and production. You will also be accountable for obtaining regulatory and customer approvals. This role works closely with Planning and Production Control, Estimating, QA, Production and Program Management.

Competencies required:

- Degree in Marine Engineering or Naval Architecture is essential, Master's level preferred.
- 15+ years in Shipbuilding and Design, with at least 5 years in a leadership role.
- Highly proficient in managing production, production engineering and project management.
- Ability to manage several projects simultaneously, and effectively manoeuvre between competing priorities.
- Highly effective people management skills.

**Please submit your résumé and covering letter to: [shipyardcareers@seaspan.com](mailto:shipyardcareers@seaspan.com). While we thank all applicants for their interest, only those selected for an interview will be contacted.**

*Seaspan is committed to fostering a culture that values diversity and invites applications from all qualified individuals, including those designated under employment equity.*

### Safety • Efficiency • Care • Accountability

Seaspan Marine Corporation is looking for talented people. We're making Canadian history and taking West Coast shipbuilding to new heights. We've been building ships in Vancouver since 1902, and now we're sharing our passion with a new generation of shipbuilders of non-combat vessels.
