

Manager, New Construction Estimating

Building a Future – Be Part of a Winning Team

Vancouver Shipyards, North Vancouver, BC

Experience, expertise and technology: that is what Vancouver Shipyards Co. Ltd.—a member of Seaspan Marine Corporation—brings to the marine industry in the design, new construction and repair of all types and sizes of vessels.

Reporting to the Vice President, Program Management, you will lead estimating for commercial and government new vessel construction. You will manage a team of estimators through the development of accurate responses for complex bids under strict timelines. In addition, you will develop estimates and conduct trade-off studies in response to proposed process improvements, contract changes and capital expenditures. Your ability to benchmark labour estimates against international standards as well as achieving cost objectives on projects will become your measure of success.

Competencies required:

- 10+ years' estimating experience in shipbuilding supplemented with at least 3 years of team management experience.
- Bachelor's or Master's degree in Engineering for Business.
- Strong management skills and the ability to expand estimating operations in support of projected increased workload.
- Solid understanding of modern shipbuilding design, procurement and production as well as contract administration for Government contracts.

Please submit your résumé and covering letter to: shipyardcareers@seaspan.com. While we thank all applicants for their interest, only those selected for an interview will be contacted.

Seaspan is committed to fostering a culture that values diversity and invites applications from all qualified individuals, including those designated under employment equity.

Safety • Efficiency • Care • Accountability

Seaspan Marine Corporation is looking for talented people. We're making Canadian history and taking West Coast shipbuilding to new heights. We've been building ships in Vancouver since 1902, and now we're sharing our passion with a new generation of shipbuilders of non-combat vessels.
