Health and Safety notice to our valued auto and drivable customers;

Given the current health crisis we are all facing, Seaspan Ferries wishes to work with our customers to reduce the risk of any virus spreading through the handling/driving of vehicles.

In an attempt to continue moving drive on units, and more importantly to keep our staff and shunt providers safe, please be advised that

Effective Immediately;

Seaspan Ferries will require that all units being checked in for shipment be wiped down by the person checking it into us.

We will expect the steering wheel, gear shifter, door handles and keys to be wiped with a sanitary cloth by the person checking the unit in prior to our office accepting the unit; a bottle of sanitizer and some paper towel will be provided by our staff if necessary.

Unfortunately, we are still seeing some vehicles dropped at our terminals for shipping that are in what could be called “very unsanitary condition”. Please be advised that if you are unable to bring the condition of the vehicles interior up to expectations, Seaspan Ferries is unable to commit to shipment.

Vehicles that fall into this category will need to be cleaned before shipping and will incur storage fees if dwell is excessive.

Thank you very much for your attention to this serious health and safety issue.

Thank you for your cooperation in this important safety effort.
